Business Online Banking

Administration Function User's Guide

As the Company Administrator there are several things you need to do before you start using Business Online Banking to the fullest.

The Company Administrator is the only person designated to add, change, or delete employee access rights.

The access an employee is granted determines the functions that can be performed by that employee.

This guide describes how to set up an employee's access, assign functions to employees, and create internal and wire transfer templates.

FNB has policies and procedures to address data confidentiality, integrity and availability. We encourage all companies to review the following useful security tips to create and support a culture of security awareness.

- Control access to sensitive areas of the office.
- Ensure all company data and customer information is securely controlled.
- Change your password on a regular basis.
- Change your password immediately if you suspect it has been compromised in any way.
- Educate staff about password confidentiality and reinforce this regularly.
- Check that all requests for information are genuine – and ignore any requests for bank account details and passwords, whether by phone or email.
- Ignore suspicious emails, consider deleting them unread – **and be very wary of clicking on any links contained within an email.** Always cut and paste URL information into a new browser window.
- Keep your web browser and anti-virus applications up to date with security patches.
- Ensure account transaction reconciliation functions are performed utilizing segregation of duties processes and performed and reviewed timely.

- Frequently check and review systems and processes with your 'security hat' on.
- Review transaction activity and account information on a daily basis. FNB has several Treasury Management services such as Positive Pay that can provide additional tools to assist with the review.

PLEASE NOTE: A Business Email Compromise (BEC) is a form of phishing attack where a cyber-criminal impersonates an executive (often the CEO), and attempts to get an employee, customer, or vendor to transfer funds or sensitive information to the phisher.

Unlike traditional phishing attacks, which target a large number of individuals across a company, BEC attacks are highly focused. Cyber criminals will scrape compromised email inboxes, study recent company news, and research employees on social media sites in order to make these email attacks look as convincing as possible. This high level of targeting helps these email scams to slip through spam filters and evade email whitelisting campaigns. It can also make it much, much harder for employees to recognize the email is not legitimate. An email message request for payment to be sent outside the company should ALWAYS be verified OUTSIDE of the email channel to ensure it is a legitimate request. Do not verify the request via email as the verification may be coming from the fraudster.

If you see anything unusual immediately contact Treasury Management Support at (866) 750-5298.

Everyone in your business needs to remember that skilled fraudsters will resort to all manners of subtlety and guile to trick people into disclosing valuable information.

For additional security updates and information, visit our website at www.fnb-online.com and click on the [Security option on the top right of the screen.](#)

CREATING EMPLOYEE ACCESS RIGHTS

To add a new employee

- Select the **Administration** tab
- Select **Employee Profile & Permissions** tab

THESE TABS WILL ONLY DISPLAY IF THE USER IS ENABLED FOR THE CORRESPONDING SERVICE. SENIOR ADMINISTRATOR AND ADMINISTRATOR USERS CAN USE THESE OPTIONS TO REVIEW ACH MANAGER OR WIRE MANAGER TEMPLATES. REFER TO THE CORRESPONDING USER GUIDE "REVIEW TRANSFER TEMPLATE" SECTION FOR THE INSTRUCTIONS ON USING THESE OPTIONS.

- The Select User Criteria screen will display, select **New Employee**
- Click **Submit**

A screenshot of the 'Select User Criteria' screen. It features a list of radio button options: 'Inquire Employee', 'Change Employee', 'New Employee' (which is selected), 'New Employee Using Existing Employee', and 'Delete Employee'. Below the list are two buttons: 'Submit' and 'Clear'. The 'Submit' button is highlighted with a yellow and blue dashed border.

Complete the information in the *New Employee* template as follows:

- **Name** – Enter the Employee's full name
- **Tax ID Code** and **Tax ID Number** – Leave blank

A screenshot of the 'New Employee' form. The form is titled 'New Employee' and '1 - Codes'. It contains several fields: '* Name' (highlighted with a yellow and blue dashed border), 'Tax ID Code', 'Tax ID Number', 'Security Level' (set to 'Employee'), 'Mother's Maiden Name', 'Employee Group' (set to 'None'), and 'Transaction Exports' (set to 'No'). There are also dropdown menus for 'Status' (set to 'Active Employee'), 'Date Created', 'Date Last Accessed', 'Date of Birth', and 'Date Last Changed'.

- **Security Level** - Indicates the level of employee access allowed
 - **Employee** indicates the employee is not allowed to review transfers
 - **Supervisor** indicates the employee has administration rights and is authorized to review transfers from their Employee Group
 - **Administrator** indicates the employee has administration rights and is authorized to review transfers

A screenshot of the 'New Employee' form, identical to the previous one, but with the 'Security Level' dropdown menu highlighted by a yellow and blue dashed border. The dropdown is currently set to 'Employee'.

TREASURY MANAGEMENT

- **Mother's Maiden Name** and **Date of Birth** - Leave blank
- **Employee Group** - Choose the group you wish your employee to be a part of

- **Transactions Exports** – Choose **"Yes"** or **"No"** to indicate if the employee can export transactions and account information for use in external applications, i.e. Quicken, QuickBooks

- **Status** - Indicates the employee status
 - **Active Employee** indicates the employee has access to the system
 - **Frozen Status, No Access** indicates the employee is not deleted but does not have access to the system
 - **Closed Employee Record** indicates a former employee that has not yet been deleted from the system

- **Email Address** - Optional field to enter the employee's email address
- **Business Phone / Ext / Mobile Phone** –Optional fields to enter the employee's phone number(s)

- **Client Details** – This section will automatically be filled in

Client Name	Client Number	Client Tax ID
<input checked="" type="checkbox"/> SWEEP TEST CLIENT	09132011	250913201

Security - This section sets up a unique username and password for the employee

- **Username:** indicates the unique ID used to log on. The username can be up to 19 characters and is case sensitive
- Click [Change Password](#)

- **New Password:** Enter the temporary password used to log on with the username. The password must be 9 to 17 characters. The password must contain at least 1 uppercase letter, 1 lowercase letter, 1 number and 1 special character. (Special characters allowed are: @ # \$ ^ & * _ - , ' .).
- **Confirm Password:** Re-enter the temporary password.

- Skip **PIN**, **Terms Acceptance Date** and the **MultiFactor Authentication** section

- **Mobiliti Business** – A checkmark indicates the user can access the FNB Business Mobiliti App using this login. Remove the checkmark to restrict the user from being able to use the App.

- **Role Assignment** – Indicates the level of employee access allowed
- Click [Add Role](#)

Select the applicable **Role Name**(s) for the user referring to the Security Level assigned on page 3 of this guide:

- **ACH** indicates the user is allowed to send ACH files
- **Administrator** indicates the user has administration rights and is authorized to review transfers
- **Employee** indicates the user is not allowed to review transfers
- **Mobile Deposit** indicates the user is authorized to make deposits through a mobile device
- **Multibank Reporting** indicates the user is authorized to pull reports and view statements through the Multibank module
- **Positive Pay** indicates the user is allowed to import files and review any suspect items
- **Secondary Approver** indicates the user is authorized to review ACH files submitted by other users
- **Supervisor** indicates the user has administration rights and is authorized to review transfers
- **Wire** indicates the user is allowed to send wire transfers
- **Wire Secondary Approver** indicates the user is authorized to review wire transfers submitted by other users
- **Note:** Multiple Roles can be assigned to a user. For example: If the new user will be an administrator who sends ACH files and can add new employees to the client, the user will need the **Administrator, ACH and Employee** Roles
- **Note:** Some Roles may not be available- access is based on Treasury Management agreement on file.
- **Note:** The black **X** will delete the corresponding Role Name

ONLY COMPLETE THIS SECTION IF YOUR COMPANY UTILIZES THE ACH SERVICE

- Select **ACH** if the user will be authorized to send and/or approve ACH files
- **This section will only appear if the user is authorized to send or approve ACH files****
- Choose the Company or Companies the ACH user will be authorized to send files for by selecting in the checkbox. (It is common to only have one Company listed.)

ACH			
<input checked="" type="checkbox"/> Employee is enabled for ACH Manager access. Uncheck the checkbox to remove ACH Manager access.			
Company			
Access	Company Name	Company ID	Company Entry Description
<input type="checkbox"/>	ECORP TEST COMPA	12512	ACH
<input type="checkbox"/>	ECORP TEST CLIEN	12345	ACH

- **Accounts** – Select the “Add” check box(es) to enable the user to access the account(s)
 - Click **Select All** in each section to give the employee access to all listed accounts
- **ACH Permission - This section will only appear if the user is authorized to send or approve ACH files**
- Choose the user’s **ACH Permission** per account:
 - **No Access:** This account cannot be used to send ACH files
 - **ACH Transfer Out:** This account can only be used to send money out of the bank account
 - **ACH Transfer In:** This account can only be used to bring money into the bank account
 - **Full ACH Access:** This account can be used to send money out of the bank account and bring money into the bank account

New:	No

- **Interface Specifications**

THIS SECTION ONLY DISPLAYS IF YOUR COMPANY UTILIZES THE BILL PAYMENT AND/OR ACH DEBIT FILTER SERVICE(S)

- **Interface** – The below options will only display if your company currently utilizes the services.

For Bill Pay access:

- Choose **Corporate CheckFree** to allow the user to process Bill Payments
- **NOTE:** If the new user has a security level of employee or supervisor (page 3 of this guide) each bill payment will need authorized by you or any administrators on the client. If you want the user to be able to make bill payments without dual control, select the security level of Administrator.

For ACH Debit Filter access:

- Choose **ACH Filter** to allow the user access to the ACH Debit Filter system
- **NOTE: Please contact Treasury Management Operations at TreasuryMgmt@FNB-Corp.com to have the remaining bank coding completed for the user to have access to this system.**
 - **User Code** - Enter the exact username assigned to the employee in the security section explained on page 4 of this guide, this is a case sensitive field
 - **Password** – Enter the password exactly as **Ach1Filter this password is standard for all debit filter users and will not be used for access into the website.**

ACCOUNTS - THIS FUNCTION IS TO GIVE PERMISSION TO EMPLOYEES TO ACCESS ACCOUNTS

- Select the **Administration** tab
- Select **Employee Accounts**

- Enter the **Access ID** or **Employee Name** of the employee you are inquiring into
- Click **Submit**

OR

- Click **Submit** to list all current users

The screenshot shows a form titled "Select Corporate Employee Account Criteria". It has two input fields: "Access ID:" and "Employee Name:". Below the fields are two buttons: "Submit" and "Clear". The "Submit" button is highlighted with a blue and yellow border.

- Click on the employee's User Name that you want to grant access rights
 - **Note:** Clicking **Cancel** will clear the entered Access ID and Employee Name

The screenshot shows a table titled "Corporate Employee List". The table has two columns: "User Name" and "User Code". The "User Name" column contains the text "USER NAME" and the "User Code" column contains the text "USERNAME". Below the table is a "Cancel" button.

- The Employee Account List will display with all of the accounts available for access
 - Click Select All to give the employee access to all of the listed accounts

OR

- Place a check mark in the box in the Add column to grant access to the corresponding account(s)
- Click **Submit**

The screenshot shows a table titled "Employee Account Access for 'USER NAME'". The table has four columns: "Add", "Account Number", "Account Type", and "Account Nickname". The "Add" column contains a "Select All" button and four checkboxes, all of which are checked. The "Account Number" column contains the values 9253, 29245, 4320, and 7830. The "Account Type" column contains the values Demand Deposit, Demand Deposit, Loan, and Loan. The "Account Nickname" column contains the values CHECKING 9253, SWEEP 9245, LOC 4320, and LOC 7830. Below the table are two buttons: "Submit" and "Cancel". The "Submit" button is highlighted with a blue and yellow border.
