### First Quarter 2022 Highlights

(All comparisons refer to the first quarter of 2021, except as noted)

- Period-end total loans and leases, excluding Paycheck Protection Program (PPP) loans, increased \$3.6 billion, or 15.7%, as commercial loans and leases increased \$2.2 billion, or 14.4%, and consumer loans increased \$1.4 billion, or 18.1%. PPP loans totaled \$179.6 million at March 31, 2022, compared to \$2.5 billion as of March 31, 2021.
- On a linked-quarter basis, excluding PPP, period-end total loans increased \$2.0 billion, or 8.2%, with commercial loans and leases increasing \$1.3 billion, or 7.9%, and consumer loans increasing \$753.8 million, or 8.9%. PPP loans totaled \$179.6 million at March 31, 2022, compared to \$336.6 million as of December 31, 2021. Excluding PPP and Howard acquired loans as of the acquisition date, period-end loans and leases (non-GAAP) increased \$259.7 million, or 4.3% annualized, on a linked-quarter basis, including an increase of \$81.7 million in commercial loans and leases and \$178.0 million in consumer loans.

- Total average deposits grew \$3.6 billion, or 12.4%, led by increases in average non-interest-bearing deposits of \$2.0 billion, or 22.2%, and average interest-bearing demand deposits of \$1.6 billion, or 11.7%, partially offset by a decrease in average time deposits of \$0.6 billion, or 16.3%. Average deposit growth reflected inflows from the Howard acquisition, PPP activities and organic growth in new and existing customer relationships, as well as current customer preferences to maintain larger balances in their deposit accounts and shift balances into more liquid accounts. Excluding Howard, average deposits (non-GAAP) grew \$2.3 billion, or 7.8%.
- Net interest income increased \$11.2 million, or 5.0%, to \$234.1 million primarily due to the benefit
  of growth in earning assets.
- On a linked-quarter basis, the net interest margin (FTE) (non-GAAP) increased 6 basis points to 2.61%, as the earning asset yield increased 3 basis points and the cost of funds decreased 3 basis points. The total impact of PPP, purchase accounting accretion, and higher cash balances on net interest margin was a decrease of 13 basis points, down slightly from 14 basis points the prior quarter.
- Non-interest income was \$78.3 million, a decrease of \$4.5 million, or 5.4%, driven by lower
  contributions from mortgage banking due to the increasing interest rate environment, partially
  offset by strong contributions from wealth management and insurance commissions and fees, as
  well as higher service charges reflecting increased customer activity.
- The annualized net charge-offs to total average loans ratio was 0.03%, compared to 0.11%, with continued favorable asset quality trends across the loan portfolio.
- Common Equity Tier 1 (CET1) regulatory capital ratio was 10.0% (estimated), compared to 9.9% at December 31, 2021, and 10.0% at March 31, 2021. Tangible book value per common share (non-GAAP) increased \$0.08, or 1.0%, to \$8.09. Accumulated other comprehensive income/loss (AOCI) reduced the tangible book value per common share by \$0.57 as of March 31, 2022, primarily due to the impact of higher interest rates on the fair value of available-for-sale (AFS) securities, compared to a \$0.16 reduction as of March 31, 2021. As part of the Howard acquisition, we issued 34,074,495 shares of common stock at \$12.99 in exchange for 18,930,329 shares of Howard common stock.

## First Quarter 2022 Results - Comparison to Prior-Year Quarter

(All comparisons refer to the first quarter of 2021, except as noted)

Net interest income totaled \$234.1 million, an increase of \$11.2 million, or 5.0%, compared to \$222.9 million, as total average earning assets increased \$3.3 billion, or 10.1%, including a \$1.5 billion increase in average cash balances largely attributed to the impact from PPP activity, \$912.3 million increase in average securities, as well as \$786.0 million increase in average loans and leases. The growth in average earning assets was partially offset by the repricing impact on earning asset yields, mitigated by the lower cost of interest-bearing deposit accounts and improved funding mix with a reduction in higher-cost borrowings and growth in non-interest bearing deposit accounts.

The net interest margin (FTE) (non-GAAP) declined 14 basis points to 2.61%, as the yield on earning assets decreased 26 basis points to 2.83%, primarily reflecting the lower yields on variable-rate loans and investment securities and the effect of higher average cash balances on the mix of earning assets. Partially offsetting the lower earning asset yields, the total cost of funds improved 14 basis points to 0.22%, reflecting an improved funding mix and a 17 basis point reduction in interest-bearing deposit costs, including a shift in customers' preferences to maintain larger deposit account balances and shift funds into more liquid accounts. The total impact of PPP, purchase accounting accretion, and higher cash balances on net interest margin was a decrease of 13 basis points, compared to a benefit of 5 basis points in the year-ago quarter.

Average loans and leases totaled \$26.2 billion, an increase of \$786.0 million, or 3.1%. Excluding PPP loans, average total loans and leases increased \$2.8 billion, or 12.2%, including growth of \$1.7 billion in commercial loans and leases (\$0.9 billion from Howard) and \$1.1 billion in consumer loans (\$0.4 billion from Howard). The increase in average commercial loans and leases, excluding PPP, included \$0.8 billion, or 16.4%, in commercial and industrial loans and \$0.8 billion, or 8.5%, in commercial real estate balances driven by a combination of the Howard acquisition and organic loan origination activity. Commercial origination activity was led by the Pittsburgh and Mid-Atlantic markets. Average consumer loans increased \$1.1 billion, or 14.1%, with a \$655.2 million increase in residential mortgages and a \$468.2 million increase in direct installment loans driven by a combination of the Howard acquisition and organic loan origination activity.

Average deposits totaled \$33.0 billion with growth in average non-interest-bearing demand deposits of \$2.0 billion, or 22.2%, and average interest-bearing demand deposits of \$1.6 billion, or 11.7%, partially offset by a decline in time deposits of \$0.6 billion, or 16.3%. The growth in average deposits reflected inflows from the Howard acquisition, PPP activities and organic growth in new and existing customer relationships. The loan-to-deposit ratio was 79.2% at March 31, 2022, compared to 84.1% at March 31, 2021, as deposit growth outpaced loan growth. Additionally, the funding mix continued to improve with non-interest-bearing deposits growing to 35% of total deposits, compared to 33% as of March 31, 2021.

Non-interest income totaled \$78.3 million, a decrease of \$4.5 million, or 5.4%, compared to the first quarter of 2021. Mortgage banking operations income decreased \$9.1 million as secondary market

revenue and mortgage held-for-sale pipelines normalized from significantly elevated levels given the sharp increase in mortgage rates. Service charges increased \$3.7 million, or 13.2%, as the year-ago quarter reflected lower customer activity due to the pandemic. Wealth management revenues increased 9.1% led by strong trust income of \$10.3 million, that increased \$1.3 million, or 13.9%, primarily from record organic sales activity.

Non-interest expense totaled \$227.4 million, increasing \$42.6 million, or 23.0%. On an operating basis, non-interest expense totaled \$194.6 million, an increase of \$9.8 million, or 5.3%, compared to the first quarter of 2021, excluding \$28.6 million of merger-related expenses and \$4.2 million of branch consolidation costs in the first quarter of 2022. On an operating basis, salaries and benefits increased \$4.8 million, or 4.5%, due to annual merit increases, higher medical costs, higher employer-paid payroll taxes and the acquired Howard expense base. Included in salaries and employee benefits in the first quarter of 2022 and 2021 was \$6.2 million and \$5.6 million, respectively, related to normal seasonal long-term compensation expense. The efficiency ratio (non-GAAP) equaled 60.7%, compared to 58.7% reflecting lower PPP and purchase accounting accretion income compared to a year ago.

The ratio of non-performing loans, 90 days past due, and other real estate owned (OREO) to total loans and OREO decreased 24 basis points to 0.44%. Total delinquency decreased 14 basis points to 0.66%, compared to 0.80% at March 31, 2021, demonstrating positive asset quality trends across the portfolio.

The provision for credit losses was \$18.0 million, compared to \$5.9 million in the first quarter of 2021. The provision for credit losses in the first quarter of 2022 included \$19.1 million of initial provision for non-PCD loans associated with the Howard acquisition. Net charge-offs for the first quarter of 2022 were \$1.9 million, or 0.03% annualized of total average loans, compared to \$7.1 million, or 0.11% annualized, in the first quarter of 2021. The ratio of the allowance for credit losses (ACL) to total loans and leases decreased 4 basis points to 1.38%. Excluding PPP loans that do not carry an ACL due to a 100% government guarantee, the ACL to total loans and leases ratio equaled 1.39% and 1.57% at March 31, 2022, and 2021, respectively, directionally consistent with improved credit metrics.

The effective tax rate was 20.9%, compared to 18.9% in the first quarter of 2021, with the increase driven by higher state income taxes and nondeductible merger-related expenses resulting from the Howard acquisition.

The CET1 regulatory capital ratio was 10.0% (estimated), compared to 10.0% at March 31, 2021. Tangible book value per common share (non-GAAP) increased to \$8.09 at March 31, 2022, an increase of \$0.08, or 1.0%, from \$8.01 at March 31, 2021. AOCI reduced the current quarter tangible book value per common share by \$0.57, compared to \$0.16 in the year-ago quarter, primarily due to the increase in unrealized losses on AFS securities resulting from the higher interest rate environment. During the first quarter of 2022, the Company repurchased 2.2 million shares of common stock at a weighted average share price of \$13.25 for a total of \$29.8 million.

#### First Quarter 2022 Results - Comparison to Prior Quarter

(All comparisons refer to the fourth guarter of 2021, except as noted)

Net interest income totaled \$234.1 million, an increase of \$10.8 million, or 4.8%, from the prior quarter total of \$223.3 million, primarily due to growth in average earning assets and benefits from the higher interest rate environment, partially offset by the \$4.2 million decreased contribution from PPP. The resulting net interest margin (FTE) (non-GAAP) increased 6 basis points to 2.61%. The total impact of PPP, purchase accounting accretion, and higher cash balances on net interest margin was a reduction of 13 basis points, compared to a reduction of 14 basis points in the prior quarter.

Total average earning assets increased \$1.4 billion, or 4%, to \$36.6 billion. The total yield on earning assets increased 3 basis points to 2.83%, due to higher yields on investments and variable-rate loans.

The total cost of funds decreased 3 basis points to 0.22% from 0.25%, as the cost of interest-bearing deposits improved 3 basis points to 0.14%.

Average loans and leases totaled \$26.2 billion as average commercial loans and leases increased \$919.4 million and average consumer loans increased \$584.9 million, compared to the fourth quarter of 2021. The average commercial loans and leases included growth of \$777.2 million, or 7.9%, in commercial real estate and \$130.0 million, or 2.2%, in commercial and industrial loans. The increases reflect the Howard acquisition as well as commercial origination activity led by the Pittsburgh and North and South Carolina markets. Consumer loan growth reflected average residential mortgages increasing \$393.0 million, or 10.8%, average direct home equity installment balances increasing \$170.4 million, or 7.4%, and average consumer lines of credit increasing \$35.3 million, or 2.8%. The consumer loan growth was driven by a combination of the Howard acquisition and organic loan origination activity. Excluding PPP and Howard acquired loans as of the acquisition date, period-end loans and leases (non-GAAP) increased \$259.7 million, or 4.3% annualized, on a linked-quarter basis, including an increase of \$81.7 million in commercial loans and leases and \$178.0 million in consumer loans.

This growth reflected the Howard acquisition, as well as continued organic growth in households and account balances, partially offset by a decline in time deposits of \$10.5 million, or 0.4%. The loan-to-deposit ratio was 79.2% at March 31, 2022, compared to 78.7% at December 31, 2021.

Mortgage banking operations income increased \$0.7 million, or 12.0%. Included in mortgage banking operations income was a \$2.3 million recovery for MSR valuation, compared to a \$1.0 million recovery in the fourth quarter of 2021, offset by the impacts of higher interest rates and the seasonal reduction in the mortgage held-for-sale pipeline and lower secondary market revenue. Capital markets income was \$7.1 million, a decrease of \$2.4 million, or 25.3%, from elevated levels in the fourth quarter. Bank-owned life insurance decreased \$1.2 million, or 31.8%, primarily due to life insurance claims in the prior quarter.

Non-interest expense totaled \$227.4 million, an increase of \$45.8 million, or 25.2%. On an operating basis, non-interest expense increased \$13.9 million, or 7.7%, compared to the prior quarter, excluding merger-related expenses of \$28.6 million and branch consolidation costs of \$4.2 million in the first quarter of 2022 and merger-related expenses of \$0.8 million in the fourth quarter of 2021. On an operating basis, salaries and employee benefits increased \$8.1 million, or 7.8%, primarily related to normal seasonal long-term compensation expense of \$6.2 million in the first quarter of 2022, as well as seasonally higher employer-paid payroll taxes and the acquired Howard expense base. Occupancy and equipment increased \$3.1 million, or 10.1%, due primarily to higher seasonal utilities costs. Bank shares and franchise taxes increased \$2.3 million due to the recognition of state tax credits in the prior quarter. The efficiency ratio (non-GAAP) equaled 60.7%, compared to 58.1%, reflecting lower PPP and purchase accounting accretion income than the prior quarter.

The ratio of non-performing loans, 90 days past due, and OREO to total loans and OREO remained at very good levels, slightly increasing 3 basis points to 0.44%. Total delinquency slightly increased 5 basis points to 0.66%, compared to 0.61% at December 31, 2021.

## **Use of Non-GAAP Financial Measures and Key Performance Indicators**

To supplement our Consolidated Financial Statements presented in accordance with GAAP, we use certain non-GAAP financial measures, such as operating net income available to common stockholders, operating earnings per diluted common share, return on average tangible equity, return on average tangible common equity, operating return on average tangible common equity, return on average tangible assets, tangible book value per common share, the ratio of tangible equity to tangible assets, the ratio of tangible common equity to tangible assets, average deposits, excluding Howard average deposits, loans and leases, excluding PPP loans and Howard loans as of the acquisition date, excluding PPP loans, allowance for credit losses to loans and leases, excluding PPP loans, non-performing loans to loans and leases excluding PPP loans, non-performing loans and 90 days past due and OREO to loans and leases plus OREO excluding PPP loans, net loan charge-offs to average loans and leases excluding PPP loans, past due and non-accrual loans excluding PPP loans to loans and leases excluding PPP loans, preprovision net revenue to average tangible common equity, efficiency ratio, and net interest margin (FTE) to provide information useful to investors in understanding our operating performance and trends, and to facilitate comparisons with the performance of our peers. Management uses these measures internally to assess and better understand our underlying business performance and trends related to core business activities. The non-GAAP financial measures and key performance indicators we use may differ from the non-GAAP financial measures and key performance indicators other financial institutions use to assess their performance and trends.

These non-GAAP financial measures should be viewed as supplemental in nature, and not as a substitute for, or superior to, our reported results prepared in accordance with GAAP. When non-GAAP financial measures are disclosed, the Securities and Exchange Commission's (SEC) Regulation G requires: (i) the presentation of the most directly comparable financial measure calculated and presented in accordance with GAAP and (ii) a reconciliation of the differences between the non-GAAP financial measure presented and the most directly comparable financial measure calculated and presented in accordance with GAAP. Reconciliations of non-GAAP operating measures to the most directly comparable GAAP financial measures are included later in this release under the heading "Reconciliations of Non-GAAP Financial Measures and Key Performance Indicators to GAAP."

Management believes items such as merger expenses, provision expense related to acquisitions and branch consolidation costs are not organic to run our operations and facilities. These items are considered significant items impacting earnings as they are deemed to be outside of ordinary banking activities. The merger expenses and branch consolidation costs principally represent expenses to satisfy contractual obligations of the acquired entity or closed branch without any useful ongoing benefit to us. These costs are specific to each individual transaction and may vary significantly based on the size and complexity of the transaction.

To facilitate peer comparisons of net interest margin and efficiency ratio, we use net interest income on a taxable-equivalent basis in calculating net interest margin by increasing the interest income earned on tax-exempt assets (loans and investments) to make it fully equivalent to interest income earned on taxable investments (this adjustment is not permitted under GAAP). Taxable-equivalent amounts for the 2022 and 2021 periods were calculated using a federal statutory income tax rate of 21%.

In view of the many unknowns associated with the COVID-19 pandemic, our forward-looking statements continue to be subject to various conditions that may be substantially different in the future than what we are currently experiencing or expecting, including, but not limited to, a prolonged recovery of the U.S. economy and labor market and the possible change in commercial and consumer customer fundamentals, expectations and sentiments. As a result of the COVID-19 impact, including uncertainty regarding the potential impact of continuing variant mutations of the virus, U.S. government responsive measures to manage it or provide financial relief, the uncertainty regarding its duration and the success of vaccination efforts, it is possible the pandemic may have a material adverse impact on our business, operations and financial performance.

#### RECONCILIATIONS OF NON-GAAP FINANCIAL MEASURES AND KEY PERFORMANCE INDICATORS TO GAAP

We believe the following non-GAAP financial measures provide information useful to investors in understanding our operating performance and trends, and facilitate comparisons with the performance of our peers. The non-GAAP financial measures we use may differ from the non-GAAP financial measures other financial institutions use to measure their results of operations. Non-GAAP financial measures should be viewed in addition to, and not as an alternative for, our reported results prepared in accordance with U.S. GAAP. The following tables summarize the non-GAAP financial measures included in this press release and derived from amounts reported in our financial statements.
