Total cost of funds decreased 20 basis points to 2.26%, with a 27 basis point decrease in interest-bearing deposit costs to 2.66% and a 42 basis point decrease in total borrowing costs, inclusive of the December 2024 senior note offering of \$500 million. The Federal Open Market Committee lowered the target federal funds rate by 100 basis points in the latter half of 2024.

Commercial and industrial loans increased \$120.4 million, or 1.6%, commercial real estate increased \$103.5 million, or 0.8%, and commercial leases increased \$117.2 million, or 17.8%. The increase in average commercial loans and leases was driven by activity across the footprint, including the Charlotte and Cleveland markets. The increase in commercial real estate included fundings on previously originated construction projects. The increase in average consumer loans included a \$1.2 billion increase in residential mortgages largely due to the continued successful execution in key markets and long-standing strategy of serving the purchase market. Average indirect auto loans decreased \$388.1 million, due to a sale of \$431 million that closed in the third quarter of 2024, partially offset by new organic growth in the portfolio.

Average deposits totaled \$37.1 billion, an increase of \$2.5 billion, or 7.3%. The growth in average interest-bearing demand deposits of \$2.3 billion and average time deposits of \$595.8 million more than offset the decline in average savings deposits of \$279.1 million and average non-interest-bearing demand deposits of \$108.6 million as customers continued to migrate balances into higher-yielding products. The funding mix has slightly shifted compared to the year-ago quarter with non-interest-bearing demand deposits comprising 26% of total deposits at June 30, 2025, compared to 29% a year ago, however, the loan-to-deposit ratio improved to 92% at June 30, 2025, compared to 96% at June 30, 2024.

Non-interest income totaled a record \$91.0 million, compared to \$87.9 million. Capital markets income increased \$1.8 million, or 34.1%, driven by record debt capital markets income and contributions from international banking, customer swap activity and syndications. Wealth Management revenues increased \$1.0 million, or 5.2%, as securities commissions and fees and trust income increased 11.3% and 1.0%, respectively, through continued strong contributions across the geographic footprint. Other non-interest income increased \$2.2 million, or 59.7%, primarily due to gains on the disposition of leased equipment.

Non-interest expense totaled \$246.2 million, increasing \$19.6 million, or 8.7%. When adjusting for \$0.8 million<sup>1</sup> of significant items in the second quarter of 2024, operating non-interest expense (non-GAAP) increased \$20.4 million, or 9.0%. Salaries and employee benefits increased \$8.9 million, or 7.4%, primarily reflecting strategic hiring associated with our efforts to grow market share and continued investments in our risk management infrastructure, as well as higher production-related compensation. Net occupancy and equipment increased \$4.3 million, or 10.1%, largely from technology-related investments and de novo branch expansions. Other non-interest expense increased \$4.3 million, or 19.9%, primarily due to the impact of Community Uplift, a mortgage down payment assistance program that was enhanced and expanded in conjunction with our previously announced settlement agreement with the Department of Justice (DOJ).

<sup>&</sup>lt;sup>1</sup> Second quarter 2024 non-interest expense significant items impacting earnings included an \$0.8 million (pre-tax) FDIC special assessment.

The ratio of non-performing loans and OREO to total loans and OREO increased 1 basis point to 0.34%. Total delinquency decreased 1 basis point to 0.62%. Overall, asset quality metrics continue to remain at solid levels.

The ACL was \$432.1 million, an increase of \$13.3 million, with the ratio of the ACL to total loans and leases relatively stable at 1.25%.

The effective tax rate was 21.5%, compared to 21.6% in the second quarter of 2024.

The CET1 regulatory capital ratio was 10.8% (estimated) at June 30, 2025, and 10.2% at June 30, 2024. Tangible book value per common share (non-GAAP) was \$11.14 at June 30, 2025, an increase of \$1.26, or 12.8%, from \$9.88 at June 30, 2024. The total yield on earning assets (non-GAAP) increased 10 basis points to 5.33%, reflecting an 11 basis point increase in loan yields and a 5 basis point increase in yields on investment securities. Second quarter net interest income included \$2.2 million in purchase accounting accretion from pay-offs of previously acquired loans resulting in a 2 basis point impact to net interest margin. The total cost of funds decreased 6 basis points to 2.26%, as the cost of interest-bearing deposits declined 10 basis points to 2.66% and the long-term borrowing costs declined 12 basis points to 4.99%. The resulting net interest margin (FTE) (non-GAAP) was 3.19%, a 16 basis point increase from the prior quarter.

The increase in average commercial loans and leases included growth of \$61.8 million in commercial real estate, \$10.4 million in commercial leases and \$3.3 million in commercial loans. For consumer lending, average residential mortgages increased \$303.9 million driven by seasonal growth in mortgage originations.

Average deposits totaled \$37.1 billion, an increase of \$155.6 million, due to organic growth in new and existing customer relationships. The increases in average non-interest-bearing deposit balances of \$164.5 million, average interest-bearing demand deposits of \$88.3 million and average time deposits of \$17.6 million were partially offset by a decline in average savings deposit balances of \$114.8 million. The mix of non-interest-bearing demand deposits to total deposits was stable at 26% for June 30, 2025 and March 31, 2025. The loan-to-deposit ratio was also stable at 92% at June 30, 2025, and March 31, 2025.

Interchange and card transaction fees increased \$0.9 million, or 7.1%, due to higher customer transaction activity. Other non-interest income increased \$3.2 million, or 113.5%, primarily due to gains on the disposition of leased equipment. Non-interest expense totaled \$246.2 million, a decrease of \$0.6 million, or 0.2%, compared to the prior quarter. Salaries and employee benefits decreased \$5.3 million, primarily due to normal seasonal long-term compensation expense of \$7.6 million in the first quarter of 2025, partially offset by normal annual merit increases and higher production-related compensation. Other non-interest expense increased \$3.4 million, or 15.0%, primarily due to the impact of Community Uplift, a mortgage down payment assistance program that was enhanced and expanded in conjunction with our previously announced settlement agreement with the Department of Justice (DOJ). The efficiency ratio (non-GAAP) totaled 54.8%, down from the seasonally higher 58.5% in the prior quarter.

## Use of Non-GAAP Financial Measures and Key Performance Indicators

To supplement our Consolidated Financial Statements presented in accordance with GAAP, we use certain non-GAAP financial measures, such as operating net income available to common shareholders, operating earnings per diluted common share, return on average tangible equity, return on average tangible common equity, return on average tangible assets, tangible book value per common share, the ratio of tangible common equity to tangible assets, pre-provision net revenue (reported), operating pre-provision net revenue, operating non-interest expense, efficiency ratio, and net interest margin (FTE) to provide information useful to investors in understanding our operating performance and trends, and to facilitate comparisons with the performance of our peers. Management uses these measures internally to assess and better understand our underlying business performance and trends related to core business activities. The non-GAAP financial measures and key performance indicators we use may differ from the non-GAAP financial measures and key performance other financial institutions use to assess their performance and trends.

These non-GAAP financial measures should be viewed as supplemental in nature, and not as a substitute for, or superior to, our reported results prepared in accordance with GAAP. Reconciliations of non-GAAP operating measures to the most directly comparable GAAP financial measures are included later in this release under the heading "Reconciliations of Non-GAAP Financial Measures and Key Performance Indicators to GAAP."

Management believes certain items (e.g., FDIC special assessment) are not organic to running our operations and facilities. These items are considered significant items impacting earnings as they are deemed to be outside of ordinary banking activities. These costs are specific to each individual transaction and may vary significantly based on the size and complexity of the transaction.

To facilitate peer comparisons of net interest margin and efficiency ratio, we use net interest income on a taxable-equivalent basis in calculating net interest margin by increasing the interest income earned on tax-exempt assets (loans and investments) to make it fully equivalent to interest income earned on

taxable investments (this adjustment is not permitted under GAAP). Taxable-equivalent amounts for 2025 and 2024 were calculated using a federal statutory income tax rate of 21%.

#### RECONCILIATIONS OF NON-GAAP FINANCIAL MEASURES AND KEY PERFORMANCE INDICATORS TO GAAP

We believe the following non-GAAP financial measures provide information useful to investors in understanding our operating performance and trends, and facilitate comparisons with the performance of our peers. The non-GAAP financial measures we use may differ from the non-GAAP financial measures other financial institutions use to measure their results of operations. Non-GAAP financial measures should be viewed in addition to, and not as an alternative for, our reported results prepared in accordance with U.S. GAAP. The following tables summarize the non-GAAP financial measures included in this press release and derived from amounts reported in our financial statements.
