# Cautionary Statement Regarding Forward-Looking Information and Non-GAAP Financial Information 

This document contains forward looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, which contain F.N.B. Corporation's (F.N.B.) expectations or predictions of future financial or business performance or conditions. Forward-looking statements are typically identified by words such as "believe," "plan," "expect," "anticipate," "intend," "outlook," "estimate," "forecast," "will," "should," "project," "goal," and other similar words and expressions. These forward-looking statements involve certain risks and uncertainties. In addition to factors previously disclosed in F.N.B.'s reports filed with the SEC, the following factors among others, could cause actual results to differ materially from forward-looking statements or historical performance: changes in asset quality and credit risk; the inability to sustain revenue and earnings growth; changes in interest rates, deposit costs and capital markets; inflation; potential difficulties encountered in operating in new and remote geographic markets; customer borrowing, repayment, investment and deposit practices; customer disintermediation; the introduction, withdrawal, success and timing of business and technology initiatives; competitive conditions; the inability to realize cost savings or revenues or to implement integration plans and other consequences associated with acquisitions and divestitures; economic conditions; interruption in or breach of security of our information systems; integrity and functioning of products, information systems and services provided by third party external vendors; changes in tax rules and regulations or interpretations including, but not limited to the recently enacted Tax Cuts and Jobs Act; changes in accounting policies, standards and interpretations; liquidity risk; changes in asset valuations; and the impact, extent and timing of technological changes, capital management activities, and other actions of the Office of the Comptroller of the Currency, the Board of Governors of the Federal Reserve System, the Consumer Financial Protection Bureau, the Federal Deposit Insurance Corporation and legislative and regulatory actions and reforms. F.N.B. does not undertake any obligation to revise these forward-looking statements or to reflect events or circumstances after the date of this document.
This presentation contains "snapshot" information about F.N.B. and is not intended as a full business or financial review and should be viewed in the context of all the information made available by F.N.B. in our SEC filings. To supplement our consolidated financial statements presented in accordance with Generally Accepted Accounting Principles (GAAP), F.N.B. provides additional measures of operating results, net income and earnings per share adjusted to exclude certain costs, expenses, and gains and losses. F.N.B. believes that these non-GAAP financial measures are appropriate to enhance understanding of our past performance and facilitate comparisons with the performance of F.N.B.'s peers. In the event of such a disclosure or release, the Securities and Exchange Commission's Regulation $G$ requires: (i) the presentation of the most directly comparable financial measure calculated and presented in accordance with GAAP and (ii) a reconciliation of the differences between the non-GAAP financial measure presented and the most directly comparable financial measure calculated and presented in accordance with GAAP.
The Appendix to this presentation contains a reconciliation of the non-GAAP financial measures used by F.N.B. to the most directly comparable GAAP financial measures. While F.N.B. believes that these non-GAAP financial measures are useful in evaluating results, the information should be considered supplemental in nature and not as a substitute for or superior to the relevant financial information prepared in accordance with GAAP. The non-GAAP financial measures used by F.N.B. may differ from the non-GAAP financial measures other financial institutions use to measure their results of operations. This information should be reviewed in conjunction with F.N.B.'s financial results disclosed on January 22, 2019, as well as F.N.B.'s corresponding Form 10-Q filing and our other periodic filings with the SEC.
Actual results may differ materially from those expressed or implied as a result of these risks and uncertainties, including, but not limited to, the risk factors and other uncertainties described in F.N.B.'s Annual Report on Form 10-K for the year ended December 31, 2017, our subsequent quarterly 2018 Form 10-Q filings (including the risk factors and risk management discussions) and F.N.B.'s other subsequent filings with the SEC, which are available on our corporate website at https://www.fnb-online.com/about-us/investor-relations-shareholder-services by clicking on the hyperlink "Reports and Filings." We have included our web address as an inactive textual reference only. Information on our website is not part of this earnings presentation.
